

CENTRAL PACIFIC HURRICANE CENTER TROPICAL CYCLONE REPORT

TROPICAL CYCLONES 1979

Central Pacific Hurricane Center

The tropical cyclone summaries for the years between 1832 and 1979 were taken from A History of Tropical Cyclones In the Central North Pacific and the Hawaiian Islands 1832-1979. This Department of Commerce publication was printed in 1981 and authored by Samuel Shaw of the Central Pacific Hurricane Center (CPHC) and the National Weather Service Forecast Office in Honolulu, Hawaii.

The 1979 tropical cyclone season was inactive in the Central North Pacific. Since the beginning of the satellite era in 1960 there have only been four other seasons with no organized tropical cyclones reported in the CPHC area, namely the years 1960, 1964, 1969, and 1977.
